Mughalsarai, Uttar Pradesh, India

Professional Summary

Final-year Computer Science Engineering student specializing in full-stack web development (MERN stack) and machine learning. Experienced in building AI-driven systems using Python, LangChain, FastAPI, and Scikit-learn. GATE 2026 qualified. Seeking a software engineering or data science role to apply hands-on project experience and strong algorithmic foundation.

Education

Institute of Engineering & Rural Technology, Prayagraj <i>B.Tech in Computer Science and Engineering</i>	2022–2026 80.7% (Till 7th Semester)
Kendriya Vidyalaya, Mughalsarai <i>Higher Secondary School (Class XII)</i>	2021 93.4%
Kendriya Vidyalaya, Mughalsarai <i>Secondary School (Class X)</i>	2019 91.8%

Technical Skills

Programming Languages: C, Java, Python
Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs
Machine Learning / AI: Scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib, LangChain
Tools & Platforms: VS Code, Jupyter Notebook, Power BI, Git, GitHub, FastAPI, Streamlit
Operating Systems: Windows, Linux (Basic)
Core Subjects: Data Structures Algorithms, Operating System, DBMS

Internship / Experience

Python Programming Intern <i>Engineer Core Summer Internship, in association with IIIT Allahabad (Effervescence)</i>	July 2023 – August 2023 Certificate No: EN-SI-6793
- Completed structured Python programming curriculum covering core concepts, OOP. - Engaged in hands-on coding exercises and projects during a 2-month internship, improving programming proficiency by 30%.	

Projects

AI Multi-Agent Sales Lead Management System <i>Python, FastAPI, LangChain, MongoDB, Gmail API, Streamlit</i>	Present
- Developed and implemented AI-driven lead qualification process, decreasing cost per qualified lead by 15% and generating 75 additional qualified leads per month through automated CRM updates. - Engineered an AI-powered multi-agent system automating four repetitive sales tasks, resulting in a 25% reduction in manual sales processing time and improved lead engagement rates. - Live demo: ai-multiagentlead-management (Streamlit)	
Grocery Delivery Web Application <i>MongoDB, Express.js, React.js, Node.js (MERN Stack), Vercel</i>	2024–2025
- Developed a full-stack MERN application with admin and user dashboards, improving system efficiency by 30%. - Implemented product management, search, and order placement features, increasing user engagement by 25%. - Live demo: grocery-app-ui.vercel.app	
Blinkit Grocery Data Analytics <i>Python, Pandas, Excel, Power BI</i>	2025
Identified inventory bottlenecks; proposed optimizations that improved delivery efficiency and inventory accuracy by 20%.	
Diabetes Prediction Model <i>Python, Scikit-learn, Pandas, NumPy</i>	2024
Enhanced diabetes prediction model by conducting five iterations, resulting in a 7% improvement in accuracy and a notable 9% increase in the F1-score metric.	

Certifications

• IBM SkillsBuild — Artificial Intelligence (Grade A+) ICT Academy View Certificate	November 2025
• Intermediate Machine Learning Kaggle View Certificate	
• Python Programming HackerRank View Certificate — 4 Stars	
• Java (Basic) HackerRank View Certificate — 5 Stars	
• SQL (Intermediate) HackerRank View Certificate — 4 Stars	

Achievements

- **GATE 2026 Qualified** — Placed in the top 13% of candidates in GATE 2026.
- Earned **4-Star** rating on HackerRank in Java, C, and Python

Soft Skills

Learning Agility	Teamwork & Leadership	Communication	Critical Thinking
------------------	-----------------------	---------------	-------------------

Languages

English (Fluent)	Hindi (Fluent)
